

Bermudian Springs Eagles

High School Football History

2000 Edition

by Donald J. Black

Allow me to begin by saying that I am a HUGE high school football fan. My interest in the history of local high school football began when I finished my second enlistment in the Air Force and returned to my hometown of Middletown, Pennsylvania. I began attending my local high school football games and noticed some interesting statistics in one of the football programs. It occurred to me that other high school football fans would enjoy reading information about their local teams so I set out to compile the history that is contained herein. I hope you enjoy reading through this book as much as I have enjoyed creating it. Although I have taken great care to ensure that the information in this book is correct, no guaranties are made regarding the accuracy or completeness of this book. If you would like any other Pennsylvania team's history book, I have similar books for each. For a complete list of available teams, a sample of the book, and some other information regarding Pennsylvania high school football, please check out my web site at www.DonsHSFootball.com You may order additional books by sending a check or money order in the amount of \$12.00 per book (\$9.00 per book if ordering 10 or more) made payable to:

Donald Black
302 Ulrich Street
Middletown, PA 17057

These books are great for any kind of school or local fund raisers. And please remember that these programs are protected under Copyright Law and may not be reproduced for any reason. Following is a brief explanation of some of the statistics that you'll find throughout the program.

Games Section

The games are listed in order of the opponent in alphabetical order. "W" stands for a win, "L" for a loss, "T" for a tie, "PW" for a playoff win, "PL" for a playoff loss, and "PT" for a playoff tie. The first number in the score is this team's score and the second number is the opponent's score. The year is listed at the top left and the overall record is listed in the top right.

Standings Section

The teams for each conference are in the order of their finish based upon their league record using the formula: $(\# \text{ League Wins} + (\# \text{ League Ties} * .5)) / \# \text{ League Games}$. If two or more teams share the same League Winning Percentage, they are listed alphabetically. The first column lists the team's league record and the second column is the team's overall record.

Opponents Section

All statistics are based on this team's entire history of playing an opponent. Record is the record against that opponent (overall history), Points For is the total number of points ever scored against that team, Point Against is the total number of points ever scored by the opponent, Largest Win, Largest Loss shows the largest and smallest point difference in any game along with the year it occurred and the score of that game(s) in parentheses. Most Points Scored and Least Points Scored is the largest and smallest team score when playing that opponent with the year of the game(s) and the final score of that game(s). Most Points Scored and Least Points Scored is the largest and smallest opponent score against this team with the year of the game(s) and the final score of that game(s).

Yearly Statistics Section

Location is the District (PIAA District, Philadelphia Public, or Philadelphia Catholic) in which this team resides. Record is the overall record for that year. Winning Pct is the overall winning percentage for that year. Points For is the total number of points scored for that year. Points Against is the total number of points their opponents scored for that year against this team. Point Difference is the Points For - Points Against. Avg is the per game average for that year. Location Rank lists where this team is compared to the other teams in their district for that year along with the team in their district that had the most Points For, least Points Against, or the largest Point Difference. State Rank lists where this team is compared to the other teams in the entire state for that year along with the team in the state that had the best Points For, Points Against, or Point Difference. The first place team for the location and state were not listed for Winning Pct because there were always undefeated teams. In the case of the state rank, there were too many each year to list.

Decade Statistics Section

The explanation for the decade statistics is the same as the yearly statistics except that the totals are for each particular decade instead of an individual year.

Overall Statistics Section

The explanation for the overall statistics is the same as the yearly statistics except that the totals are for the complete history of high school football in Pennsylvania. The Largest Win, Largest Loss, Most Pts Scored, and the Most Pts Allowed are the same as in the Opponents section. The Record vs Locations section is a list of all of the districts this team has ever played along with their record vs teams in each location (district) and the Winning Pct against teams in that district.

I have also included the complete playoff history for this team's district (PIAA District, Philadelphia Catholic, or Philadelphia Public), District Champions, State Playoffs or Philadelphia City Playoffs, and State Champions or Philadelphia City Champions.
